

## Work Place Safety Courses

Every year an estimated 646,000 employees have an accident at work.

231,000 of these injuries lead to over 3 days absence from work.

An estimated three million working days are lost due to handling injuries and slips & trips (LFS).

Safe workplaces don't just happen by accident they occur when there is a culture of safety within the workplace. To help encourage that culture of safety within your organisation educate everyone in the workplace about the safety requirements and invest in training.

Workplace safety training will help reduce or eliminate injuries and illnesses from occurring and employers should take the necessary steps to ensure the safety and health of all their workers

All About Training offer a range of 1 day workplace safety courses such as

- Shunter Training
- Tail Lift Training
- Working at Height
- Harness Safety Use and Inspection
- Ladder Safety Use and Inspection
- Slips, Trips and Falls
- Manual Handling

All courses include theoretical and practical training and a certificate of attendance will be issued on successful completion of the course. **All About Training also offer bespoke courses to meet a company's specific requirements.**
